## 12. How to make a custom background ?

- First , please press the "Background selection" button
- Then , choose your favourite image ONLY SUPPORT .png .jpg .gif
- Next , press "OK"
- Else , you may press "Reselect" to choose image again
- If you want to use the old background , just press the upper right's button
- Then you will see your old background
- Don't forget to press "OK" to confirm !

## 12. What can I set in Setting Page ?

You may set these four types' setting

- Update -> Download Beta Version -> Show New Version Reminder
- Theme -> Default Theme -> Dark Theme -> Pink Theme -> Leek Theme -> Summer Theme -> Customize Theme
- Ingame Data Reader -> Able ZGT to read Zgirls' Data (You will only read the demo if you didn't on it) -> Unit conversion (Only support 0 - 6 , otherwise it will change to be 1 [Defalut]) -> Show RSS Part's Transform (Show how many RSS add / cost now ) -> Show Card (RSS , Mecha , Troop , Enabler , Landmine , Process , Star Language , EXP)
- Troops -> Bigger / Smaller Text Size

## 13. What is Ingame Data Reader ?

Provide players with some data in their personal Zgirls account in real time:

- Resources (Fuel, Food, Steel, Alloy, Obisidian, Kyanite, Kyanite basic, Kyanite Cluster, Glory Mark, Catalyst, Diamond)
- The levels of the four mechas
- The number of three types' landmine (grenades, mines, incendiary)

- Number of troops (only the first 10 types of troops with the largest number are displayed)
- ^Progress (display unit name, number of training, remaining training time, total training time)
- ^Activated Star Language (display the active Star Language name and required Star Stone's combine)
- Enablers (only display Enablers' level)

Remarks:

- The data items with "^" are still negotiated by Zgirls development department and have not been put into service, please pay attention.
- In order to reducing the data traffic consumed by ZGT, the "real-time" update part of this function will be automatically updated every three seconds.
- You can adjust the required additional functions through the settings page (the gear button on the main page) (allows to read the player's data in the Zgirls account, display the resource type data transition, show/hide the specified category display, data value, etc. )
- Please make sure that the device is connected to valid Wi-Fi /open mobile data before using the real-time data list.
- The real-time data list can only work normally when Zgirls version 1.2.21 (or later) is installed, otherwise it will crash.

## 14. What is "Update" function ?

Actually this function was added before Zgirls Tool available at Google Play Store ~ Now it will be the pathway of tester to get the newest beta version

## 15. Hey , what did "About" contains ?

This page contains the changelog of each version Also you can get the contact way of Voc

## 16. So , tell me why there have "Donate" ?

Actually , Zgirls Tool is a free application to everyone , so there won't have any function which need you to pay , that means Voc won't get any income at Zgirls Tool . In order to earn some money , Voc have added Donate function , if you want to support Zgirls Tool , you may do a donation , the range of it is HKD \$8 - HKD \$200

## 17. Where does you get these images ? Can I use it ?

Honestly , Voc get these images at phone (I won't tell you the location and the way to get them)

**\*\*Before Upload Zgirls Tool to Google Play Store , Voc have already told one of the Zgirls employee and she didn't rejected \*\***

So , sadly that means you couldn't use them at other area (include the apps , website , etc you make) else you get the permission from Zgirls .

One more thing , you are not allow to repack / unzip Zgirls Tool , you might get punishment if you do it

## 18. How to contact Voc ?

- Discord : Voc-夜芷冰#2512
- Email : [voc.app.programmer@gmail.com](mailto:voc.app.programmer@gmail.com)

## 19. Where can I give my feedback / ideas to Voc ?

You may :

- Send a E-mail to Voc to tell your ideas
- Join the Zgirls Official Discord Server : [Press me](#)
- Then go to the channel who call "#zgirls-tool-suggestions"
- Feel free to tell your idea at there , don't forget to tag Voc ~

## 20. How can I be a tester of Zgirls Tool ?

You may PM Voc at Discord , or send a E-mail to Voc , with :

- Your Discord name + Your name in Zgirls
- The reason that you want to be a tester
- Your Email (For used to download the test version) **Please remember , you will be invite to join a private Discord Server if you're passed Also you shouldn't share or copy this test version to other user (Both Screenshot and Messages which include information of the test version) It's better to prepare one more device (VM / Nox are also suitable to use Zgirls Tool)**

## 21. Can I be a Dev of Zgirls Tool ?

Sadly now Voc couldn't able anyone to help Voc about it , but you may gives feedback / ideas to me , I'm welcome to hear different ideas ~

## 22. What's the require of Zgirls Tool ?

- You need a device which is running Android 5.0 or above
- You need a device which have over 1GB RAM
- You need a device which have over 100MB Free Storage Area
- You need a device which can connect and use Wi-Fi / Mobile Data

## 23. May I know the "history" of Zgirls Tool ?

- Before Zgirls Tool was developed , it's a list which show today's homework (That's real)
- After Voc done this project , Voc want to make another app which is suitable to all Zgirls player
- Then , Voc copied the old project and changed some part of it
- That's the first version of Zgirls Tool (1.0.0 DEMO)

- It's an app that can read lots tips of play well at Zgirls (JSON + HTML)
- After some days , Voc got an idea while calculating how much RSS cost when upgrade TB
- And that's Make a TB Calculator !
- Voc used a lot time , finally done the database of TB Calculator
- Then Voc asked one of the Zgirls Volunteer to open a channel that's only for Zgirls Tool
- At there , Voc get a lot nice ideas ! Some of them were put inside to Zgirls Tool
- One day , Voc got a message , onw of the player advice Voc to make a List that can show what you have in Zgirls
- Then , you know , Voc used over an month to done this function
- It will be keep update , enjoy when you're using Zgirls Tool !

## **24. What's the future of Zgirls Tool ?**

- When Zgirls Tool is totally done , Voc will prefer to make a online version
- First it will only include Ingame Data Reader
- Don't forget to check the "#zgirls-tool-suggestions" because Voc will tell the next chagelog at there !
